

URGENT MESSAGE

NEW WORLD ORDER

The world government that is being promoted today in the media and even in school textbooks is part of a plan traced out several centuries in advance by secret societies. These organizations derive their power through political, military and religious systems; they maintain the secrecy of their rites and ceremonies for which they receive direct instruction from God's enemy and men's enemy. The objective of the plan is to enslave the human race under an oppressive system and limit the individual's conscience. Slavery is not necessarily physical slavery. There is also an indoctrination work on a global scale that begins in early childhood making man submissive to their own interests.

SECRET SOCIETIES

Secret organizations like Masonry and the Illuminati of Bavaria, to name the best known, are joined together by a long-standing order that still remains behind the scenes. The Jesuit Order, which today has become popular by taking on Jorge Bergoglio as Bishop of Rome, it is but the mother of the secret societies. They have infiltrated every aspect of the public and private life of the world's nations, even the so-called Protestant or autonomous nations. The appearance of sanctity and vows of poverty is merely a mask shown to the world to hide the vilest and vicious attacks against humanity that have been committed in history. In the initiation oaths for the Jesuit order each Jesuit is engaged to get done with the freedom of conscience and whoever advocates it, without even a thought of the means necessary to complete the task. It is too late to put a stop to its influence and temporal power. This monstrous organization has stretched its tentacles into every government, every school and every church and hopes to dominate our minds.

CONTROL SYSTEM

There has been a control structure building around us for decades without us detecting it. The big cities stand as big prisons where crowds stick together looking for an illusion of progress or mere survival. We are totally dependent on the market. We do not know how to grow our own food, let alone produce our own energy. Soon our nations will be wrapped in a mass confusion generated by stock shortage, and large cities will become battlefields. Presently we are receiving stupefying chemicals through the water we drink and we are sprayed with crop dusters planes. The electromagnetic waves from electrical appliances and the processed foods we consume daily are slowly and progressively undermining our physical and mental health. We need to come out of "Babylon" as announced by the ancient Hebrews' oracles; Abraham's pilgrimage in Genesis and the "the great whore" in Revelation is a foretaste of the coming crisis and of the position that must be adopted by all of us that love freedom and truth.

A THREAT TO THE FAMILY

One of the main objectives of the "ruling elite" is to destroy family ties. The gay and feminism movements, although many are unaware of that fact, were created and funded by the Rockefeller family with the purpose of dissolving the family unit and creating a society similar to that described by Aldous Huxley in his book "A Happy World" and George Orwell in "1984" in which the bonds of brotherly love and belonging to a tribe or family are replaced by an idolatrous obedience to a collective system and a few world leaders. Pornography, films and music are encouraging promiscuity and infidelity. The children are educated away from their parents; the parents work outside the home and get together at night to watch TV. The sense of belonging and benevolence is destroyed and the only thing that brings a sense of happiness is the consumption of unnecessary items.

NOTHING HAPPENS BY CHANCE

We can no longer feel that the great historical events leading the way to the current condition are incidental. There is clear evidence that the French Revolution, the First and Second World Wars, the Cold War and many other known events were premeditated. They responded to the economic interests of the banking and petroleum producing Anglo- American elite, and in turn to their masters controlling them in the shadows. Attacks like Pearl Harbor and the Twin Towers, as the murders of Abraham Lincoln, JFK and others were premeditated by the same "elite". There are actually no ideological antagonisms. Rome created communism and capitalism both as totalitarian forms of government and today the synthesis of these two models is displayed as globalization. The CIA, FBI and other investigative agencies were created by Jesuits. The chaos and insecurity prevailing in the cities are brought about so people themselves will ask to be guarded day and night by cameras, drones and microphones. Soon there will be microchips implanted; in fact they will be compulsory.

WE NEED TO WAKE UP

We need to stand against tyranny and world dictatorship, but we cannot do that with the weapons of despotism. You cannot quench a fire adding more fuel. Corruption is fought with integrity, falsehood with truth and violence with love. Several movements advancing many truths are standing up against the New World Order, but, in this battle between life and death we cannot accept truth mixed with error, for the simple reason that our eternal destiny and that of our children are at stake.

The uninformed in vogue are trying to make us believe in aliens and reptile men, bringing into disrepute the solemn message of freedom that should be standard of justice and virtue. The only aliens involved in this conflict are the messengers of God and of Satan that, as described in the book of Revelation, are in constant conflict.

TIME IS SHORT

If today you are reading these lines, you should understand that it is not by chance. Just as there is an evil intelligence controlling this world, sowing horror in its wake, there is also a loving being that through His Word calls us to be free from the corruption and evils of this system. Today we have ahead of us the most portentous and terrible event the world has ever seen. The Scriptures announce that the earth will be visited by the judgments of God and that as in times past the chosen people of God will be persecuted. After the time of trial, those who remain faithful will be miraculously spared when the Son of God as King of Kings is revealed. According to His promises this earth will be renewed and pain and death will no longer exist. The great deceiver will be destroyed with all those that were a part of his rebellion. Today is the time to seek the Creator in order to be really free.
